

Winter Promise

CHARLOTTE MASON INSPIRED HOMESCHOOLING

- Rich, Intriguing Reading
- Interactive Journaling
- Easy-to-Do Activities
- Try-It Experiences
- Online Links & Videos
- Nature Study

YOHOHO!

Your Adventure Awaits!

2022

Welcome to WinterPromise

Hi! We're so glad you're getting to know us!

WinterPromise is a curriculum designed for parents and charter schools that want students to experience the joy of learning. Our curriculum is designed around the Charlotte Mason ideals of learning by discovery. Around Charlotte Mason's ideals, we've created an easy-to-use curriculum that integrates multiple learning avenues:

- A foundation of great books and reading
- Open-and-Go! activities
- True to life experiences
- Experiments
- Ministry or service opportunities
- Cultural explorations
- Cross-curricular language arts
- Interactive games and timeline cards for review
- Mapping & geography
- Timeline building
- AND -- best of all -- Educationally-rich and interactive notebooking!

A not-to-be-missed aspect of a WinterPromise education is our wonderful exclusive resources, which are part of every themed program. WinterPromise produces over 200 of its own resources, each one designed to bring your family a unique and wonderful experience.

And it's all so user-friendly!

You can check out our **website at www.winterpromise.com**, and see samples of our resources. You'll find so many things to love about WinterPromise!

Print & Ebook Options

Note that most WinterPromise exclusive resources are available in either print or ebook. Ebooks can be printed out for multiple students. Any resource NOT specified as either **PRINT** or **EBOOK** can be assumed to be a regular print resource.

Contact Us

We love to speak with families about our curriculum and the needs of their children. Feel free to reach out to us. WinterPromise is headquartered in Michigan, so our hours are 9-5pm, EST. Call us at 231-245-1417. We'd love to hear from you!

Choosing a WinterPromise Program

Decide Which of Our Year-Long Themed Programs Might Fit the Grades of Your Students!

Each program is created for a range of ages, so many families can keep their families together, or keep together a cluster of their students. Schooling together allows you to create a family culture, and is less work for parents. Plus, you'll find a cross-curricularly linked language arts program for any grade in a Themed Program's range.

PROGRAM:

I'm Ready to Learn
Journeys of Imagination
Hideaways in History
Animals & Their Worlds
Children Around the World
Adventures in the Sea & Sky
American Story 1
American Story 2
Quest for the Ancient World
Quest for the Middle Ages

GRADES RANGE:

Ages 3 to 5
Ages 3 to 5
1st to 4th
Pre-K to 4th
1st to 7th
2nd to 9th
1st to 7th
2nd to 8th
4th to 12th
4th to 12th

TOPICS STUDIED:

Preschool Skill-Building Program
Preschool Read-Together Topical Books
World History in a Year for Young Students
Nature Study of Animals in Seven Habitats
History, Geography & Culture of 30 Countries
World History in a Year via Sailing, Flight, Space
Early American History (1000-1850)
Later American History (1850-Present)
Ancient World History & Cultural Studies
Medieval World History & Cultural Studies

If You Have a Choice of Programs, Pick One That Intrigues Your Family!

Each of our themed programs is unique, but each have common elements, as well. Each features all or most of the resources in the bulleted list to the left. If you are considering a couple of programs -- both of which fit your age ranges -- go online and read more in-depth about each program. You'll find a lot more information online!

You May Wonder -- How Do I Know WinterPromise Will Work for Me?

Parents love WP because we provide ready-to-go helps to streamline work for parents and allow you to enjoy the journey, not spend your time on prepping. As to your students, if you look at the bulleted list to the left, WP provides a wealth of different experiences. This means that if one or even a couple of learning experiences aren't working for a particular student, you still have many others to explore and use. This allows you to tailor WP to your family -- and even student by student. Finally, WP believes in firing up the imagination and using fun and rich learning methodologies. Kids love the experiences in WP!

Next, Check Out Our Language Arts.

As mentioned above, you'll find a cross-curricularly linked language arts program for any grade in a Themed Program's range. Parents love our language arts because each level includes everything you need related to language arts: phonics, vocabulary, reading, reading comprehension, spelling, grammar, creative writing, report writing, etc. Our early language arts has a great focus on phonics and tightly controlled-vocabulary reading, our middle grade language works on a foundation of good grammar and the basics of creative writing, and our high school language arts refines all these areas and develops key writing skills.

Finally, Decide Whether to Add Science or Math.

Parents love our science programs because they are high-interest, easy to complete, and have a strong science journaling component. Their trim, 1- or 2-day format fits easily alongside the comprehensive nature of our Themed Programs. As to math, we offer several programs. They vary in approach and each has its own merits. Our selection includes the humanities/story-style Life of Fred and CM-style Living Math, and others.

I'm Ready to Learn

A Preschool Program for Young Learners, Ages 3-5

I'm Ready to Learn is a skills-based program for preschoolers -- one that provides a fun introduction to all types of learning concepts, including the alphabet, phonics, letter formation, logic and sorting, science, art, and math. This program gives you the basics for a 1-2 year discovery of basic readiness skills. It covers four fun-filled themes: At the Farm, In the Garden, At the Pond & In the Zoo. Add your own picture books or our Journeys of Imagination (see next page), which follows generally along with these themes, for a wonderful preschool experience.

I'm Ready to Learn is All About Discovery-Based Learning

Young ones will find they can investigate and find out all about farm animals, their backyards, pond life, and the wild animals at the zoo. They'll make these discoveries with hands-on activities, educational investigations, sorting exercises, find-out-for yourself fun, try-it-to-see-what-happens science, and a Letter-By-Letter Blank Book.

They'll Really Like Digging Into the "Make-a-Letter Hands-On Pack"

The items in this fun hands-on pack provide a lot of practice of key skills using brightly colored items and shapes of all kinds. Students use the kit to sort by commonalities, distinguish initial sounds, find certain colors and other attributes, add and subtract with manipulatives, form letters, increase his letter recognition skills, and much more, each building preschool skills.

Your Adventure Awaits!

Ready for Your Adventure to Begin? Discover More at . . .

<https://winterpromise.com/themed-programs/im-ready-learn-theme-introduction/>

Take a Look at These Preschool Resources

I'm Ready to Learn Guide

Part learning activity resource, part student workbook, this guidebook is so much more than a schedule. Its 36-week schedule is simply set up and gets you on your way to an easily-paced day for your youngest learners. This comprehensive guidebook includes alphabet and reading activities such as making word puzzles or creating alphabet crowns. Math activities are included that get young learners counting, adding and subtracting. Art activities support this guide's four themes, and build letter, shape and color recognition while developing motor skills. Activities in the guide are extremely easy to do, with little prep and simple or no supplies. The guide schedules all these resources and provides all these learning activities. You'll find the activities will blend in easily between the other learners in your household. As a final plus, library book suggestions are included that will accent weekly study topics. Includes one set of student pages and helps. 200 pages.

SKILLS BUILDING: Make-a-Letter Hands-On Pack

Do-dads and ticklers and all kinds of manipulatives will get your preschooler to sort by commonalities, distinguish initial sounds, find certain colors and other attributes, add and subtract with manipulatives, form letters, increase his letter recognition skills, and much more. * Not intended for children under 3 years.

ACTIVITIES: The Arts & Crafts Busy Book

Little ones will enjoy the fun crafts and activities scheduled from this resource. Many of the projects coordinate with your weekly topics. Also used in our other pre-school program, "Journeys of Imagination."

ACTIVITIES: Letter-by-Letter Blank Book - Make a letter book with cut-out letters from the guide.

BIBLE: Conversations About God - Young learners will connect the day's learning with God's work.

THEME BOOKS: Farmer Boy, Complete Zoo Adventure, One Small Square: Pond, OSS: Backyard

These four titles support the four themes of Ready to Learn, immersing students in these great spaces!

You May Want to Add "Journeys of Imagination" - A Book Collection

I'm Ready to Learn program is a skills-based program for preschoolers -- one that provides some "together" reading, but preschoolers generally need a selection of picture books to supplement this reading. The **I'm Ready to Learn** guide offers suggestions for picking up related picture books at the library to supplement your study. This keeps costs down for parents, but some parents would prefer to purchase a set of picture books that coordinate with **I'm Ready to Learn**.

So we developed **Journeys of Imagination** to provide this fun reading adventure. The books and themes in **Journeys of Imagination** coordinate with **I'm Ready to Learn**, adding to the preschool experience. If you want to have everything in hand for a full preschool experience -- or if you simply want to build the basics of a wonderful picture book library -- we recommend you check out **Journeys of Imagination**.

Hideaways in History

World History in a Year for Young Learners, 1st to 4th

In a twinkling, your young learner will be transported to stops all over the world, peeking in on some of the most interesting events in world history. Your guides will be the brave caterpillar Indiana Stickstones, Sticky the spider, and Chirp the cricket.

All along the way, they'll also enjoy simple activities and crafts, work on a Bible memorization program, complete a science program and master grade-level skills. Each week additional web links and specific library instructions are given for books we recommend reading that add to the experience. This simple program is designed to suit young learners and fill about half a day when you add a suitable language arts program.

Best of all, your student will relish one special part of this program: HIDEAWAYS! The opportunity to create his or her own learning play spaces. Like the fun of playing tent under blankets, your student will create three-dimensional play spaces that help them re-enact what they are learning. Students can pull together their own Civil War fort, "build" a pyramid, run a colonial store, or go to sea in a (bathtub) WWII submarine. **So much fun!**

<https://winterpromise.com/themed-programs/hideaways-history-theme-introduction/>

Take a Look at Hideaways Resources

If you have students in both age ranges, add the correct skills book and additional consumables.

Hideaways in History Guide

The Hideaways Guide is so simple to use. Things to read aloud together and talk about as a family are listed right at the top, followed by written work for students, and fun activities to try. At the bottom, a notes section offers additional teaching strategies that feature web links or other teaching hints to make your study even more enjoyable! Each week, an additional reading suggestion from the “You Wouldn’t Want To . . .” series is included that you can borrow from a library.

Let’s Hideaway in History

This history book allows you to cuddle up with your students and read-aloud together about Egypt, Greece, Rome, and on to modern times. The books follow the adventures of the brave Indiana Sticksenstones, and his faithful insect friends Sticky the Spider and Chirp the Cricket as they travel to places in the past.

“Make-Your-Own” Hideaway Book

Your student can complete this fun notebook, as it is designed for young learners. It asks students to fill in simple answers or draw about what they have learned from their weekly reading of “Let’s Hideaway in History.” Pages build skills with scissors and fine motor tasks.

On-the-Spot History Fun

If you want to stick to making just a few Hideaways, there are additional easy and fun activities in this resource. They are so quick to try, and support what students have learned in their history study. They include simple experiments, crafts, recipes, and games, and are easy on parents!

Hiding God’s Word in My Heart

Consumable helps to get students memorizing basic, essential scripture verses from God’s Word.

Hole Up in a Homemade Hideaway

Students can make fun Hideaways each week, based on the fun of “tent-building,” using simple supplies, and with the help of these easy directions and pictures. Then, they can add their own historical props! Students can choose to make an Egyptian pyramid, the Great Wall, a medieval castle, a western general store, WWII submarine, and more. Includes alternate ideas for simpler hideaways.

Other Included Resources:

Mastering Kindergarten (or First Grade) Skills Book
Usborne Encyclopedia of World History
The World God Made

Animals and Their Worlds

Animal Behavior & STEM Exploration for Grades Pre-K to 4

Head out with your students from Pre-K to 4th on an animal adventure through seven habitats! Take an up-close look at the difference between the tails of different shark species, or discover what a giraffe's tongue can do. Your family might discover animal "clean up" specialties, or conduct an experiment on night vision. There's just so much they'll learn! Even the most avid animal lover will find something to learn in this jam-packed program!

You'll want to take a peek at the nature journaling that your student will be doing — it is so incredible -- and a sample is online! Students will try out nature observations of plants, animals, and insects; sketch natural items and the "one small squares" of woodlands or wetlands; enjoy hands-on activities, conduct experiments, take samples, and enjoy discoveries of all kinds!

There are resources that are common to both sets, and some that are designed for younger or older students. Your family can choose to do one set or another, or use a combined set for a range of ages! Check out the list of resources to choose the right one for your student!

Your Adventure Awaits!

- Observe Layers in Forests and Rainforest
- Try Out Giraffe Legs or a Giraffe Tongue!
- Observe African Wildlife at a Watering Hole
- Uncover Animal Camouflage Strategies
- Consider How Animals Keep Themselves Clean
- Discover the Seven Zones on a Beach
- Look at Multi-Talented Rainforest Root Systems
- Match Sharks to the Tails That Fit Their Lifestyle
... AND Much More!

Your Guide Schedules Resources for a 1-4th Grade Student, a Pre-K/K Student, or Both!

A Combined Set Includes One of Each of the Resources Below.

Resources for Both Students:

- **Animals and Their Worlds Guide** - Clear Weekly Schedule & Teaching Helps
- **The “One Small Square” Book Series** - 7 Books, One for Each Habitat
- **DK Animal Encyclopedia** - 376-Page Resource with Beautiful Illustrations
- **“Make-Your-Own” Animal Book** - Animal of the Week Journaling Resource
- **Diorama Pack** - Seven Color Habitats with Animals to Complete Them
- **Animal Height Chart** - Chart Animal Heights Compared to Students
- **God Designed It First** - Discover the Glory of God in Nature’s Design

Resources Just for Pre-K/K Students:

- **Burrows, Beehives & Beds Journal** - Nature Journal, 350+ Color Pages!
- **Alphabet Art** - Learn the Alphabet with Activities, Games & Letter Crafts
- **Animal Easy-Shape Drawing Book** - Draw Fun Animals with Simple Shapes
- **Alphabet Fun Pack** - Alphabet Reinforcement with Dot-to-Dot & Coloring
- **At the Zoo! Craft Fun** - Make Simple, Crafty Animals of the Week

Resources Just for 1st to 4th Students:

- **Habitats, Hollows & Homes Journal** - Nature Journal, 350+ Color Pages!
- **The World of Animals** - Study Animal Kingdoms and Classifications
- **Deep into Habitats Pack** - Additional Journaling Pages for Animal Sleuths

Explore Seven Habitats with a 350+ Page, Full-Color Nature Journal! Burrows, Beehives & Beds for Pre-K/K Habitats, Hollows & Homes for 1st-4th

Children Around the World

Culture, Geography & History in a Year for Grades 1st to 7th

Pack your bags to tour thirty countries, encountering their cultures and traditions, crafts and celebrations. But that's not all! You'll learn a ton about world geography and also take a mid-year break to enjoy learning about cultural and religious traditions surrounding Christmas.

Your family will also discover the needs of kids who don't have access to basic needs like clean water or shelter for the night. You'll see how many children must work to survive, and find out how you can help to ease the suffering of children around the globe. You'll find the effect on your family is truly priceless!

Adventure Together:

- Discover global geography with fantastic full-color maps and mapping activities.
- Try out the culture or taste each country's food with hands-on cultural activities.
- Journal about the needs of children, building compassion and awareness of global need.
- Celebrate festive cultural gatherings as a family -- like Songkran from Thailand!
- Explore full-color ebooks that let you encounter unique cultures and landmarks.

Tour Countries with 19 Bonus Ebooks!

American Story 1

Early American History in a Year for Grades K to 7

Your family will love this year of early American history, a year focused on telling America's story from the Native Americans who called it home to its discovery by Europeans and on, until frontiersman opened the West and talk of a Civil War began in the East. They'll hear all the stories of courage from America's past, both traditional and long-forgotten, and focus on Lewis and Clark's epic journey across the continent. You will decode Benedict Arnold's traitorous message, and meet exciting Americans who fought for freedom, built a canal, or rode for the Pony Express.

We've prepared a wealth of well-illustrated resources to make this the journey of a lifetime! Interactive journaling will immerse your kids in early American places and events. Together you'll try out open and go activities, try early American crafts and recipes, tour important landmarks, build a colonial village, complete flip and fold maps, and much more!

Your Adventure Awaits!

American Story 2

Later American History in a Year for Grades 2nd to 8th

Delve into our American culture, from the struggle of the Civil War, and how it changed our national identity, to the toppling of the twin towers on September 11th, 2001, and how this has changed today's world. Along the way, you'll discover the westward-moving, invention-creating, city-building, store-establishing, business-making, future-loving, fad-introducing American people that created a new American culture.

As you journey along, you'll enjoy the many learning experiences that will help your student get to know our American culture. They'll conduct secret missions, help with the war effort, be a robber baron for a day, sing cowboy songs, live the pioneer life, design a city tenement, host a 50's night, and create their own newfangled fad! Plus, you'll create your own American culture magazine, discover intriguing American painters, and go inside the lives of the presidents who have served America!

Adventures in the Sea and Sky

World History in a Year for Grades 2nd through 9th PLUS Outer Space, Weather & Ocean Science

Come aboard ship and look at history in a new way! See how sail determined which nations rose and fell, and how these historical events unfolded in modern times. Next, you'll take off into the skies, where you'll work alongside the Wright Brothers as they crack the mystery of flight. You'll be right there in the workshop as they experiment on and finally master flight forces. Then, watch how flight played a role in the major events of the twentieth century! The final stop is space! Peer out on history from space ships and stations. New ships are taking people to discover things about the universe. Look at spaceships today, and contemplate the next step in human transportation is how it may change human history here and in space! What a thought!

Meanwhile, in your science study, you'll study the oceans and the creatures in them and how different natural forces affect our weather. You'll also explore space and learn about our neighboring planets!

An Overview of the Two History & Culture Programs

Quest for the Ancient World

- Structured with separate guides and resources for 4th-8th and 9th-12th
- Read aloud resources are common to both groups, keeping kids together
- Intriguing journals for each age group
- Covers the classical world in-depth with many other ancient cultures
- Book set includes Volume 1 of "Mystery of History" & "Story of the World"
- "Adventure Quest" for 4-8th includes focus on Israelite history and culture
- "Archaeological Quest" for 9th-12th includes "Unwrapping the Pharaohs"

Quest for the Middle Ages

- Structured with separate guides and resources for 4th-8th and 9th-12th
- Read aloud resources are common to both groups, keeping kids together
- Intriguing journals for each age group
- Book set includes Volume 2 of "Mystery of History"
- Covers medieval history and culture, the Renaissance and Reformation
- "Plunder Quest" for 4-8th focuses on barbarians, villains, kings & knights
- "Gothic Quest" for 9th-12th focuses on gothic cathedral & castle treasures

Adventures in Pine Hollow

MILESTONES IN READING

Letters to Little Words - A 36-Week Program for Pre-K or K

Letters to Little Words is designed for students ready to begin learning letter identification and names, sounds and formation. This program works great for students who haven't yet worked on the alphabet and those who have had some instruction. This program also has creative suggestions which coordinate with our themed programs such as "Hideaways in History," "Animals & Their Worlds," and "American Story 1." Students learn with interactive methods and fun activities!

Get Set for the Code
Go for the Code
Mac's Make-Your-Own Phonics Readers
Jump Right Into Reading Workbook

Syllables to Sentences - An 18-Week Program for K or Advanced K

Syllables to Sentences is a program for students who are just ready to start reading three-letter words, such as bat, win, or pot. We created this to be an 18-week program as we found that so many students are at different places in learning to read. Some need more time after learning the letter sounds and decoding three to four letter words (which they do in Letters to Little Words) before they are ready to read sentences. The program can be sped up, slowed down to be completed in a year, or completed in 18 weeks depending on the student. The follow-up program to this is Paragraphs to Pages, also an 18-week program.

Syllables to Sentences Guide

Romp in Pine Nut Park Readers Set:
A set of 18 sequential, decodeable readers that start with reading 3-letter words and progress to sentences.

Paragraphs to Pages - An 18-Week Program for Advanced K to 1st Grade

Paragraphs to Pages follows Syllables to Sentences, and is another 18-week program. Like Syllables to Sentences, this program works similarly in that it is created to be flexible to meet the student where they are. Paragraphs to Pages begins by covering vowels and then moves its focus onto more difficult phonograms, such as qu, dge and wor. This program is the first in our Early Reading Language Arts to use the write-in readers. Our write-in readers are unique in that the assignments are all in one place and each week is focused around a specific phonics concept. This means that student reading, reading comprehension, phonics, spelling, and vocabulary learning all focused around the weekly phonetic theme. This thorough coverage of each phonogram builds decoding skills, reading speed, and comprehension.

Paragraphs to Pages Guide
Pine Nut Street Handwriting Set

Write-In Reader: Play on Pine Nut Street
Write-In Reader: Tricks in the Thicket

Stories to Short Chapters - A 36-Week Program for 1st or 2nd Grade

Stories to Short Chapters follows Paragraphs to Pages and covers a full school year. This program heavily focuses on reading comprehension and difficult phonograms. This program increases in difficulty from Paragraphs to Pages both in word length and amount of reading. Students will practice handwriting, work on spelling, phonics, and vocabulary. Basic grammar concepts such as capitalization, periods, subject/verb sentences, periods, etc. are introduced slowly this year. Students will complete their assignments and reading in our wonderful write-in readers! The activities in this program come from the Sneaky Snacky Squirrel Game and Acorn's Game Set, a WinterPromise exclusive. Each week students will play a board game to reinforce what they've learned. These board games will also help them memorize their spelling words and help them understand synonyms and antonyms.

Words I Use When I Write
Acorn's Game Set & Sneaky Squirrel

Write-In Reader: Frolic in the Forest
Write-In Reader: Winter in the Woods
Write-In Reader: Mischief in the Meadow
Write-In Reader: Havoc in Pine Hollow

Readers to Real Books - A 36-Week Program for 2nd or 3rd Grade

In Readers to Real Books, students increase their reading comprehension and basic grammar skills. Students consider the story, such as what happened first, second, third or what happened just before or after the story? Students are asked to think about the characters in the story and tell back about them and other happenings. This program is unique compared to the other Early Reading Language Arts programs, in that it heavily focuses parts of speech and basic punctuation. It then progresses on to teach students how to divide words into syllables and much more. Students enjoy fun handwriting practice, writing assignments, phonics pages, spelling and vocabulary pages.

Readers to Real Books Guide
Silver Lake Handwriting Set
Three "Parts of Speech Books
like "Hairy, Scary, Ordinary"

Write-In Reader: Ambush in the Aspens
Write-In Reader: Skating on Silver Lake
Write-In Reader: Treachery in the Timber
Write-In Reader: Laughter at the Lodge

LA 3 - Tracking Down Good Grammar

Learn about the eight basic parts of speech with Scout the Dog! This program fully grounds the student in grammar instruction as students learn parts of speech and basic mechanics such as capitalization, sentence structure and types, and more. A rollicking-good time will be had with the workbook set, guided by the endearing dog, Scout, whose adventures are sure to have kids learning and laughing. Students continue to improve their reading skills with scheduled book lists.

LA 3 Program Guide
Wordly Wise 3000 - Bk 3
SpellWell Book B, BB & Key

LA 3 Student Four-Workbook Set
Scout the dog guides your student through several pages per day, including grammar instruction and practice, creative writing instruction, cursive writing and more, in exercises filled with his fun adventures!

LA 4 - Solving the Mysteries of Grammar

Solve the mysteries of basic grammar and continue cursive writing. Students will continue to work on mastery of basic grammar concepts as they review the parts of speech and their uses, and they'll continue to work on traditional cursive writing skills introduced last year. This program allows students to progress into more formalized creative writing projects and read books that average 150 to 250 pages in length, reading about a chapter a day.

LA 4 Program Guide
Reason for Handwriting - Bk D
SpellWell Book C, CC & Key

LA 4 Student Four-Workbook Set
Solve baffling grammar mysteries such as the Case of the Dastardly Dognapping or the Fake Seuss Tale with Cliff Hanger, a tough sleuth and great wordsmith.

LA 5 - Digging into Paragraphs

Master the basics of writing a good paragraph. Scout has returned with all new adventures in Alaska that will guide students through the basics of writing a good paragraph. Creative writing is focused on constructing paragraphs of various types, from instructive to descriptive and more. Along the way, Scout will help students move forward with their grammar studies to more difficult concepts such as direct and indirect objects, clauses, verb phrases, and more while reviewing basic usage and mechanics, practicing their cursive writing skills, and vocabulary building.

Scout's Guide to Good Paragraphs
SpellWell Bk D, DD & Key

LA 5 Student Four-Workbook Set

Scout is back as his family moves to Alaska, where -- amid grammar and writing exercises, he has wild adventures and needs your grammar skills!

LA 6 - Exploring Word Pictures

Focus on choosing the right words to express your written ideas. LA 6 has a fun space exploration theme that helps students add creativity to their writing with more effective use of vocabulary. Students will add words to an advanced word dictionary and utilize a spelling dictionary that includes a thematic and homonym index. They'll also sharpen skills such as developing interest-catching stories, using personification and more with their use of words. A dash of fun is added in their alien-themed spelling and grammar books; both really connect with students of this age.

LA 6 Program Guide

Advanced Words I Use When I Write
Spelling Dictionary for Writers
Alien Spelling Attack!
First Contact

LA 6 Student Two-Workbook Set

Go aboard a starship and seek out new grammar adventures. Captain Kendall, Ensign Will and the crew will encounter new situations in space that will engross even reluctant learners. Reinforces the grammar concepts introduced in LA 5. Consumable.

Reader Sets You Can Add -- These Are Scheduled in LA Guides

These reader sets are scheduled in the LA guide for the grades shown, and can be ordered online.

LA 3 ANIMALS LIST: Black Beauty, Call of the Wild, Wind in the Willows, Poppy & Rye, Stuart Little, Black Star, Bright Dawn, A Bear Called Paddington, and Ginger Pye.

LA 3 EARLY AMERICAN LIST: Pocahontas, What's the Big Idea?, Benjamin West and His Cat Grimalkin, Night Journeys, Hannah of Fairfield, Who Was Daniel Boone?, Dog of Discovery, Once on This Island, and Farmer Boy.

LA 3-6 LATER AMERICAN LIST: Iron Thunder, Caddie Woodlawn, The Great Fire, Jim Ugly, Helen Keller, Jason's Gold, A Year Down Yonder, On the Wings of Heroes, My Side of the Mountain, How to Eat Fried Worms.

LA 3-6 SEA & SKY LIST: The Strange Intruder, The True Confessions of Charlotte Doyle, Dangerous Waters, Fish, Kids' Shark Book, Crash at Cannibal Valley, Wonderful Flight to the Mushroom Planet, and Mysterious Benedict Society.

LA 3-6 CHILDREN LIST: Rainbow Garden, Treasures of the Snow, The Good Master, The Steadfast Tin Soldier, The Three Musketeers, The Black Pearl, Listening for Lions, Heidi, The Jungle Book, Master Puppeteer, and Year of the Panda.

LA 4-7 EARLY AMERICAN LIST: Children of the Longhouse, Almost Home, Songbird, Guns for General Washington, Yankee Doodle Boy, Little House in the Big Woods, Soft Rain, Who Was Mark Twain?, and Giant Rat of Sumatra.

LA 4-6 ANCIENT LIST: Tirzah, Where I Belong, The Wadjet Eye, Bible Wars & Weapons, Rise of the Golden Cobra, Aesop's Fables, Theras & His Town, Detectives in Togas, and The Vinegar Boy.

LA 4-6 MIDDLE AGES LIST: The Silver Branch, The Edge on the Sword, Medallion, The Puppeteer's Apprentice, Adam of the Road, Spy for the Night Riders, Ten Boys Who Made a Difference, Red Hugh, Prince of Donegal, Crispin at the Edge of the World.

LA 7 - Mastering the Writing Process

Study the writing process and produce five different papers this year.

Junior high students will master the writing process this year, and demonstrate what they learn in five different written reports. Along the way, they'll learn essential writing skills associated with non-fiction written reports such as outlining, note-taking, writing research, using transition words, assembling a bibliography, developing a "hook," and more. This program includes writing lesson worksheets, a student grammar book and worksheets, a vocabulary book, and a guidebook that offers discussion topics on key literary elements. Each of the five papers a student produces has topic suggestions linked to themed program topics, and students encounter a literature set that coordinates with our themed programs. In-depth information about each resource can be found online. You can choose a book set linked to our Ancient, Middle Ages & American History themes. Book set lists right.

LA 8 - Developing Your Storywriting

Learn to construct a plot that speaks to readers and supports writing goals.

Junior high students will learn how to develop a plot and structure, learning key skills such as 20 ways to plot, "hooking" a reader, stretching tension and the four "chords" of a scene. Interesting assignments allow students to evaluate books they've personally enjoyed or use general knowledge while they are learning. By the end of the year, students will write a short story using their new skills. This program includes a grammar workbook, "Write Great Fiction: Plot & Structure," a vocabulary book, and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. In-depth information about each resource can be found online. You can choose a literature set linked to our Ancient, Middle Ages & American History themes. Literature book lists are to the right.

LA HS 1 - Intriguing Written Expression

Delve into how to use words to enliven writing of all kinds. High school students will discover how words can be used to intensify action, bring descriptions to life, animate characters, and deepen emotion. They'll develop topical word pages they can use for a lifetime to help them choose intriguing words in their writing. Students will also practice making every detail count in creating believable text, characters, places and events, whether in reports or fictional writing. This program includes writing lesson worksheets, a student grammar book and worksheets, the book "Write Great Fiction: Description and Setting," and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. In-depth information about each resource can be found online. Literature book lists are below.

LA HS 2 - Creating Captivating Fiction

Construct characters in fiction and write a piece of mystery fiction all your own! High school students will learn how to create three-dimensional characters and develop their emotions. They'll learn to use these emotions to help along their story, and work on settings, dialogue and more as they discover how to develop a good mystery plot. Interesting assignments allow students to evaluate books they've personally enjoyed while they are learning. During the year, students will write a short story using their new skills. This program includes a grammar workbook, "Write Great Fiction: Characters, Emotion and Viewpoint," the intriguing book "Writing Mysteries," and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. In-depth information about each resource is online. Literature book lists are below.

Literature Sets You Can Add -- These Are Scheduled in LA Guides

These reader sets are scheduled in all of the Jr. High and Sr. High LA guides. The sets can be ordered online.

ANCIENT WORLD LITERATURE SET FOR JR. & SR. HIGH:

Mara, Daughter of the Nile, The Cat of the Bubastes, Hadassah, Archimedes & the Door of Science, D'Aulaire's Book of Greek Myths, Galen & the Gateway to Medicine, The Ides of April, Beyond the Desert Gate, Ben Hur.

MIDDLE AGES LITERATURE SET FOR JR. & SR. HIGH:

The Life of Paul, Augustine Came to Kent, Joan of Arc, The Hidden Treasure of Glaston, Big John's Secret, Chastaine's Guardian, Hawk That Dare Not Hunt By Day, Ivanhoe.

AMERICAN HISTORY LITERATURE SET FOR JR. & SR. HIGH:

Witch of Blackbird Pond, Amos Fortune: Free Man, 1776, Undaunted Courage, Lyddie, All Sail Set, A Tale of the Western Plains, With Lee in Virginia, The Great Bridge, The Great Wheel, Dragonwings, Hattie Big Sky, Farewell to Manzanar, Roll of Thunder Hear My Cry, The Cross and the Switchblade.

(More titles are scheduled to use in 1 or 2 years.)

Elementary Science Programs

The World Around Me - Grades K to 2nd

Basic Science Principles and Topics

An excellent "first" science program that explores the scientific method, then introduces students to plants, animals, water, air and sky, the earth, light, and physical forces. Allows students to learn by observation and simple experiments. Designed to be completed in 2-4 hours per week.

World Around Me Guide
Children's Encyclopedia
The Story of Inventions
One Small Square: The Night Sky
Science Play

More Fun with Nature
Water Everywhere
Energy Makes Things Happen
Forces Make Things Move

Dinosaur Days - Grades 2nd to 6th

Ancient Science: Creation Science, Simple Machines, Dinosaurs & Fossils

Spend a year exploring the Days of Creation, simple machines, dinosaurs, fossils, and studying these remains. Easy-to-complete activities are scheduled, but in addition, your student will work through the extensive Dinosaur Days of Long Ago notebook, getting to know species of dinosaurs one by one. This easy-to-complete program is designed to complement the comprehensive nature of our other programs. Can be completed in 2-5 hours per week. The notebook is consumable.

Rock Around the Earth - Grades 3rd to 6th

Geology & Earth Science

Spend a year exploring the forces that shape the land. Rocks and minerals, gems and formations will all be studied. Fantastic resources allow students to learn by observation and simple experiments. This is an easy-to-complete program, designed to complement the comprehensive nature of our other programs. Includes easy-to-do activities like creating a flood in a jar, making a mini-glacier, a sedimentary lunch and more! Can be completed in 2-5 hours per week.

Human Body & Forensics - Grades 4th to 6th

Investigate Your Body's Life & Its Unique Way of Identifying You

Go "inside" your body's systems to discover how you breathe, eat, think, move and feel. You'll also learn about great milestones in medicine -- the germ theory, the invention of the microscope, sanitation, x-rays and more. Then, take a trip inside the basics of forensics -- fingerprinting, simple evidence provided by blood, handwriting clues, fiber and hair evidence and other basic forensic tools. Fantastic resources allow students to learn by observation and simple experiments. Designed to complement the comprehensive nature of our other programs, can complete in 2-5 hours per week.

Equine Science - Grades 3rd to 7th

Study of the Horse

Spend a year learning oodles about horses: how horses move, all about their anatomy, a horse's gaits and the work horses do, their wants and needs, and how to care for them. As you go, you'll learn a little on how the horse has been a part of history, try all sorts of activities and experiments, and draw horses as well, all in our marvelous notebooking resource. We even include opportunities to expand the study beyond science with literature and writing suggestions, art appreciation and art projects, timeline and geography work. Price above reflects a printed guide and notebook. Ebook also available online for guide and notebook. Many books can be borrowed from libraries. Can be completed in 2-5 hours per week. Fulfills 1 science and 1/2 art credits. The notebook is consumable; you can see sample pages here.

Math Programs

Living Math

Have you ever noticed that we tend to compartmentalize when teaching our children? In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see and read road signs, read maps, and count miles. But many math curriculums are nothing but monotonous drill sheets dressed up in pretty colors, not a living book. Content, story, and the ability to show math in real life make a living math book, so Living Math is written as an unfolding story of twins having adventures that teach math concepts and help students learn to use them in daily life situations! Grades 1-6.

Things You'll Love About This Math Curriculum!

- Teach math lessons through the creative means of a life story
- Provides a link for the downloadable answer key - Keeps your cost down!
- Has a scope and sequence that makes it easy to place your student
- The learning is so well-presented that there's no need for a teaching guide

We highly recommend this curriculum!

Go Online: <https://winterpromise.com/living-math/>

We Offer Several Math Curriculums That Families Love - See Them Online

Horizons Math - K-6
Easy-to-use, full-color leveled workbooks.

Life of Fred - Middle Grades
Uniquely presented story format for real-life math.

Saxon Math - K-12
Traditional math with spiral review.

Jacobs Math - High School
Algebra & Geometry for self-directed learning.

Chess Programs

A Knight's First Moves - Beginners in Chess in Grades K-4

Do you have a younger student that is interested in chess but doesn't know how to play? This program is a great way to introduce your student to chess! Chess has many benefits educationally, logical thinking, self discipline, critical thinking skills, team work and much more! This program, designed for students from K-4th grade, takes kids on a chess journey. Through interactive activities and engaging books they are taught the basics of how the pieces move, how to win the game, basic introduction to strategy, and given tips on other ways to keep improving and playing! This program is great for younger beginners, as we combine activities, reading, and even online tools to give your child a unique and fun experience. If you are worried that you know as much or maybe even less than your child-have no fear! In our Teacher's Guide we offer parent helps and notes to tell you how to teach the particular subject you are studying even if it is brand new to you! Go on an adventure with your Young Knight this year!

Chess for Kids

Go Online: <https://winterpromise.com/a-knights-first-moves-k-4th/>

A Knight in the King's Court - Older Chess Beginners, Grades 5 & Up

This program is designed to challenge older students who are new to the game of chess. It teaches the same concepts that are in our Knight's First Moves program, but advances at an accelerated pace and branches into more advanced studies of chess. The spine resource, "Mastering Basic Checkmate," helps the student use different combinations of pieces to end the game, providing the student with a foundation of patterns that will be used as they continue to master the game. Then, students will master new tactics and strategic ideas, learn the rules of the game and how to record each game they play. Different websites are given to provide more opportunities for students to play chess against others and also learn about the rich history of the game. Chess has been shown to improve concentration, and build problem-solving and critical thinking skills, teamwork and patience.
