So Easy to Use!

Just place a lesson card on the touch-sensitive surface. Phonics Pad "magically" recognizes the lesson and immediately downloads its game play, speech, and sounds. In an instant, lights begin flashing along the sides and a voice explains what to do next. Throughout the lesson, lights and speech direct and correct answers. Phonics Pad is so easy to use that even young children can use it independently. Best of all, it includes 128 lesson cards that can be used again and again, all of which coordinate with WinterPromise phonics instruction. We've scheduled it in all the programs listed above, so you'll be able to use this for several years!
